

OPEN POSITION WITH ANAEE-ERIC FOR AGROSERV: COMMUNICATIONS OFFICER

Location: AnaEE-ERIC Central Hub, Gif-sur-Yvette (France)

Application deadline: 31 October 2026

Anticipated start: January 2027

CONTEXT

AnaEE-ERIC, the European Research Infrastructure Consortium for Ecosystem Research, seeks a motivated Communications Officer to join its international and dynamic team in the Central Hub. We are looking for a creative and well-organised person to continue and further develop the communications of our flagship project, AgroServ, ensuring its results reach and engage researchers, policy makers, practitioners and the wider public.

AgroServ (Integrated SERVICES supporting a sustainable AGROecological transition) is a Horizon Europe project that gives European research communities access to integrated research services. These services help advance knowledge on agroecosystems and foster new agroecological practices. The consortium brings together more than 70 partners across 11 research infrastructures. It works closely with researchers, industry, farmers, citizens and policy makers.

More: <https://agroserv.eu> and <https://anaee.eu>

ROLES AND RESPONSIBILITIES

- You'll have responsibility for deliverables and milestones of the communications work package, following the standard required by the European Commission (EC)
- Support the organisation of events, webinars and conferences, including promotion and follow-up
- Contribute to the communication and dissemination reporting for the EC
- Design print and digital materials: social media visuals, infographics, posters, roll-ups, flyers, presentations newsletters, reports, presentations and branded templates
- Maintain and develop the project's visual identity, in line with the strategy
- Create visuals for calls for access, webinars, events and project deliverables, including video thumbnails and website graphics
- Ensure visual consistency across all channels and partners
- Plan, write and schedule content for the project's social media channels (LinkedIn, Bluesky, YouTube)
- Handle the project website and newsletters
- Monitor analytics and report on communication performance
- Build and maintain an editorial calendar

REQUIREMENTS AND SKILLS

Essential

- Master's degree in communication, media, graphic design or equivalent experience
- Strong graphic design skills, shown through a portfolio (internships, academic projects, associations and freelance work all count)
- Excellent organisational skills: able to manage several projects, contributors and deadlines at once
- Proficiency in Canva, Microsoft and Affinity (equivalent to Adobe Creative Suite)
- Excellent oral and written English and strong copywriting skills (CEFR C2)
- Experience managing social media accounts for an organisation, association or project
- Autonomy, curiosity and a collaborative attitude in an international team

Desirable

- Interest in environmental sciences, sustainability and science communication
- Familiarity with EU-funded projects (Horizon Europe, Erasmus+ or similar)
- Basic video creation and editing for social media
- Familiarity with WordPress, Brevo or Mailchimp
- Knowledge of another language will be an asset

CONDITIONS

This position will be under the hierarchical responsibility of the Director General of AnaEE-ERIC. It will be a permanent contract linked to the completion of the AGROSERV project (expected in August 2028), with a probation period of 4 months, renewable once, under French law. Non-EU nationals must have a valid full-time work permit for France at the date of their application or in demonstrable position to get it by the end of October 2026 at the latest.

WE OFFER THE FOLLOWING

- Competitive salary and benefits, and a vibrant workplace in the heart of France with a strong emphasis on work-life balance.
- Two days of remote work authorized per week, after 6 months of seniority, according to our telework charter.
- A benefit package including a comprehensive health insurance, pension liability, public transportation subsidies, Ticket Restaurant.
- A relocation package will be offered when appropriate, according to the existing rules in AnaEE-ERIC, and compliant with the French law.
- The opportunity to work in world-leading international research institution with state-of-the-art facilities.
- Access to collaborative projects with academic and industrial partners across Europe.
- A supportive environment that fosters professional growth and development.

HOW TO APPLY

To apply, send us the following documents in pdf format to admin@anaee.eu:

- Curriculum Vitae (2 pages maximum)
- Cover Letter (1 page maximum)
- List of previous work (website/brochure/social media campaign/articles)
- Names, positions and email addresses of at least 1, maximum 3, reference persons.
- **Note:** We will only consider applications submitted correctly by email.

Application deadline: 31 October 2026, 17h CET. However, applications may be reviewed prior to the closing date, early submission is encouraged.

Anticipated start: January 2027

AnaEE-ERIC is an equal opportunity employer and welcomes applications from any country and will examine the application regardless of gender, disability, or supposed minority status.

AnaEE-ERIC is an intergovernmental research organization established under the European Council (EC) regulation 723/2009 on the community legal framework for European Research Infrastructure Consortium (ERIC) legal status. AnaEE-ERIC provides tools to understand the multiple global change drivers on terrestrial and aquatic continental ecosystems across Europe. It proposes access to a distributed, versatile network of facilities that can simulate environmental drivers from land-use change, pollution, biological invasions, rising atmospheric greenhouse gases concentrations, and to increasing extreme events such as droughts and heatwaves. AnaEE-ERIC advances ecosystem science and contributes to effective environmental management by making highly specialized tools and services accessible. Further information on the aims, mission, governance, and statutes of AnaEE-ERIC can be found at <https://www.anaee.eu/>
